Specimens collected June 30 – July 7 marked * taken to Cambridge July 9, 1906. xx taken to Cambridge July. 31. 1906

* Nostoc muscorum
* Protococcus pluvialis
* Lyngbya Carteyi

Lichens

* Parmelia perforata
* Amphalina physica
* Verrucaria on beech
* Coliciium

Pyxine
Leptogium.

Fungi Imperfecti.

* Hyphoiblophora fragiformis
* Graphium sp.
* Helminthosporium
on maple.
* Dendrodochium
* Vermicularia on
Trillium
Acervulus on Leucaea
** Helbum on beech?
** Sphaeronema gnatale
** ~~on Anthurea~~ ?
on Lonicera conspicuum

** Mould on coll. dryophila

Ascomycetes

* Hypocrea viridis
* Nectria
* Lasiosphaeria ovina
* " hirta
* Bertia moriformis
* Valsa on Populus.
* Tapesia
* Dasyscypha on moss.
* Discomycete on moss
* Erinella minima de-
* Acellaria on beech
* Chrysomyxa Abietis
* Parasite on Pteris
Black Trail
* " on Vaccinium
on Hemlock bits.
** Hypomyces on Polyp. abietinus
** Hypocrea on alders
** Lachnea on Pinus resinosa.
** Valsa on " strobus
** Dasyscypha on pine needles
** Hypocrea dentata (H. Nebulosa)
** red Peziza on ground
Phialea on the ground.

Basidiomycetes.

* Thelephora tuberculosum
* Cyphella ochracea
* Solenia villosa
* Lebacina. White
* Asterostroma cervicolor
* Crepidotus mollis
* Tremella yellow
** Corticium sulfureum
** Mycena sanguinolenta

* Glomerulis
* arcyria pomiformis
* Trichia
* Didymium
* Fuligo varians
** Lamproderma arcyrionema
** Crihraria argillacea
** Small Cribraria
** Slender Cribraria
** Did. Nectrix forme
** Badhamia utricularis
** Physarum sessile
** " orange-stalked. pulchripes

Hepaticæ,

* Plagiochila interrupta
* Hepatic near Lake
* Bolella interrupta
* Lepania on stone
Brook Trail
* Hepatic Brook Trail
** J. ex secta ~~deformis~~ geminata-alba
** Radula tenax
** J. ex secta geminata-alba
** J. minuta.

Mosses,

* Anomodon tristis
* Hypnum on log
* in River.
* Bryum on stone. Hayfords
* Racomitrium canescens
* " on Cedar, Cascades

* Botrychium
obliquum

Algae.

Collected July–Oct. 1906.

Gloeocapsa confluens.
Nostoc purpureum
Leiosiphon decellatus
Calothrix Brebissonii
Fischerella thermalis
Symploca muscorum
Trentepohlia odorata
" Chlicliana.
Hapalosiphon fontinalis
Scytonema crispum
Calothrix fusca
Merismopaedia glauca.
Protococcus on cow dung.
Bahariospermum vagans.
Closterium Lunula.
Mesocarpus Lowes Lake.

Docidium nertiformis
Cosmarium
Penium

Coleochaete soluta.
Ulothrix
Stichococcus vaginatus.
Schizothrix Friesii.
Anabaena laxa

Lichens.

Amphiroa phyllocarpa

Ephebe (spiculosa?)

Ephebe pubescens

Coniocybe

Calicium on Rhus

Calicium

Gyalecta fagicola

Baeomyces byssoides.

Parmelia colpodes.

Hanzi
coll. Aug – Oct. 1906

Ceratiomyxa fruticulosa
Reticularia lycoperdon
Lindbladia effusa
Arcyria incarnata
" nutans
" punicea

Hemitrichia serpula
" rubiformis

Chondrioderma reticulatum
" testaceum
Angioridium cretaceum

Badhamia rubiginosa
Crihronia argillacea
Diachea elegans
"
Lamproderma arcyrionema
Physarum didermoides
" viride

Choudonyoungeeo aurantiaeus

Aecidium Hieracii
Aecidium on Senecio
Puccinia Pyrolae

Entyloma Compositarum.

Sphaerone mella
oxysphora
Mycogone cervina.
Sphaerostoma lignatile
Daria roeh nophila
Monilia fructigena

Hypha dothora fraxinea
Nematelia nucleata;
Tremella cetrariæ
Tremella . yellow.

Dermatea Cerasi,
Trichaina conspersa v. Rhm.
" Fraxini
Cryptodiscus pallidus
Sclerroderris acerina
Tromera resinae

Salix viminalis
Centabella Platani
Schizotrichia aquilinum
Ceratostomella microspora
" barbirostris
Melanospora lagenaria

Hysterium fungicola
" gelatinosum
Hysterium rodellus

Hysterographium Mariae
" Howeanum.

Entalosma cuspidatum
" salmoneum

Mycena sanguinolenta
" Leiana

Collybia lacunosa,
" cirrhata.

Radula tenax
Jungermanniæ (exacta)

Афинаэлосиим мидатим
Вотуэлим

Давид Гиллиам.
